Apocalypse Situational Summary

WHAT: Humanity’s Epic “Unspoken” Rite of Passage

We have arrived at the climax of human history: our decision to allow a *slavescape* or fight for a *freescape*. Unbelievable as it sounds, we are dealing with comic book level villains, in a dystopian science nonfiction crisis. **It is a war for our minds and behavior.**

NBIC technologies are being used to convert Earth into a transhuman slavescape.

Klaus Schwab, founder of the World Economic Forum says of the Great Reset: this *“technological revolution ... is blurring the lines between the physical, digital, and biological spheres”*. This euphemistic statement translates into a transhuman coup d’état, rapidly engulfing the entire world: **mandates and restrictions of physical activities, overreaching digital surveillance, and mRNA injections to modify our DNA**. If passivity, denial, fear and apathy continue, humanity will experience enslavement like it could never have imagined throughout all of human history; to include every aspect of life, right down to our thoughts. Do not passively accept every “new normal. Review the track records of crises-policies (problems-solutions). **Each crisis is a pretense to enact a policy that removes more liberties.**

WHEN & WHERE: Here and Now – Unfolding Before Our Eyes

WHO: Worldwide Criminal Factions

Entire parallel societies of criminals operate alongside law-abiding societies in every country. “Conspiracy” is standard operating procedure for humanity. Follow the money and benefits from any mandate: all are executed by legions of “**deep state**” amoral minions, positioned at all levels of industry and government (obvious from watching the news), funded by key **billionaires**, taking orders from **global elites**, who are influenced by who knows what (but it’s not good). Look at the chaos flowing down through the entire hierarchy of the United States government (which has become Slavescape.gov). Literally overnight, countries all over the world, decided in unison to destroy their economies to fight a virus. It’s not “politics”, it’s a global coup.

WHY: Inhuman Insanity

HOW: False Flag Crises

Currently, the world criminal cabals have decided to unleash chaos, in an attempt to create a “**problem**” for which they will offer a “**solution**”. The **Great Reset** was initiated with a false flag **pandemic** operation as a pretense for stripping liberties, and systematically dismantling free countries. manufactured crises serve as pretenses to enact emergency policies that strip liberties. Countries are dismantled with chaos, inflation, shortages, racial wars, etc. **Success for the Great Reset requires that humanity do nothing!**
